

Directory of Registered Supervisors for the Professional and Occupational Performance (POP) Record and Referees for the MCIAT Professional Assessment

What does it involve?

Supervisors/Referees play an important part within the progression to Chartered or Technician membership and help ensure that candidates meet the standards set out within the POP Records or MCIAT Professional Assessment. Supervisors/Referees should be able to provide both support and advice to the candidate throughout the process.

Referees need to be able to:

- maintain a good relationship with the candidate
- help clarify the Institute's required competence standards
- plan and participate in meetings with the candidate, as and when required

Supervisors/Referees who have agreed to participate under this scheme have not been assessed for this role by the Institute but are Chartered Architectural Technologists, MCIAT.

Who to select?

The Institute will not recommend Supervisors/Referees to the candidate or give references. It is recommended that Supervisor/Referee and candidate have several conversations/meetings to ensure the probability of a healthy relationship before committing themselves. To make contact, please look at the details provided in this document.

Will I need to pay for this service?

Candidates must be aware that this arrangement is purely between the candidate and the Supervisor/Referee. The Supervisor/Referee may or may not charge for their service. If there is a fee to be charged, the candidate will be required to pay the Supervisor/Referee directly for their services and the Institute has not set a pay scale for this. It is advised that you and your Supervisor/Referee discuss this prior to commencing any support mechanisms and establish limits of both time and fees. Expenses such as travelling to the candidate's work place may be included as long as this is agreed in advance. Any fees charged should be discussed and agreed in advance.

What if my evidence is Deferred/Referred by the Member Panel?

It should be made clear to candidates and Supervisors/Referees that not all submitted evidence is guaranteed to be accepted. This is true whether the Supervisor/Referee is an existing line manager or has been contacted through this scheme.

What if there is a dispute?

CIAT view these arrangements as strictly personal between the candidate and Supervisor/Referee unless there is clear evidence for breaking the Institute's Code of Conduct.
